

# Introducing the Canvas Parent App

Canvas is our school's **Learning Management System** and provides support for every student, at every stage, in any learning environment. Canvas supports teachers in improving student achievement and the quality of the curriculum from our littlest learners to our soon-to-be graduates. (Instructure, 2020)

At TVCS, we have created a customised learning environment to support and connect learning initiatives that meet the diverse needs across years R-12 and to share and celebrate learning. Parents can automatically co-enrol in Canvas with their child as an observer. It will look different for a parent of a Reception student versus a parent of a Year 12 student. Our teachers continue to work on new initiatives that will utilise Canvas more extensively and you will hear more about these as they are rolled out across the school.

1

On your phone, simply open the TVCS App and click on *Canvas*.

2

Once loaded, the App will ask you 'What's your school's name?'  
Type in *Torrens Valley Christian School*

3

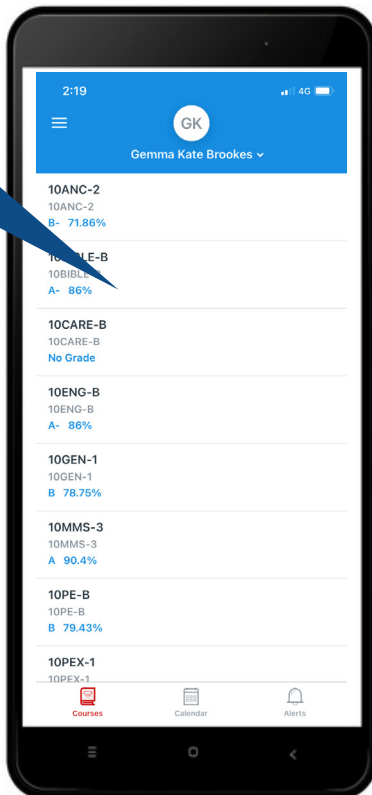

You will then need to login using the credentials provided to you by the Front Office.

4

Explore all the features available on Canvas Parent.

## Home Page

Allows you to see a student's grades across all courses/subjects (Select different Students using the drop down)

## Course Page

Access all teaching material for a particular course/subjects.

## Assessment Details

See all assessments, due dates & grades for each course/subject.
